## DIGITAL IMAGE CAPTURE STATION

Add **DIGITAL IMAGE CAPTURE**  
and **DIGITAL STORAGE** capability  
to your **ENDOSCOPY** imaging system.

***Image documentation  
the way it should be...  
with high quality digital  
images organized into  
manageable digital  
patient image files.***

***Plus, provides for  
HIPAA compliant archiving.***

### Features:

- Capture and store images in **DIGITAL** format from your existing **ENDOSCOPY** video system.
- Record high resolution static images or streaming video onto long life DVD or CD-R disks. Provides for secure archiving with HIPAA compliance.
- Quickly access patient images at random with the included thumbnail review software.
- Add image annotation when desired.
- Print out selected images to a printer.
- Use the touch screen monitor to input patient ID data, set system parameters, and review stored images.
- Additional capability to do off line reports.
- Provision for connectivity and expansion with the built-in network port.
- Software based design for easy upgrades.
- FDA approval: 510(k) K030728

## **SPECIFICATIONS**

### **Image Acquisition:**

video acquisition: Digital-DV, FireWire (IEEE1394), Analog-YC  
or Composite, NTSC or PAL

Digital Image Formats: MPEG2, BMP, JPEG (all at 720 x 480 pixels)

### **Image Storage Times Based on MPEG2 at 5 Mb/s**

Internal Storage: 2,000 minutes

Removeable Media Storage: CD-R 18 minutes, DVD 120 min.

### **Image Playback:**

MPEG2 software decoder for on-screen digital video display

Thumbnail selection of images for printing

Image Annotation

### **Computer and Operating System:**

CPU: Pentium 4 operating at 3 GHz

RAM: 512 MB DDR

Hard Drive: 80 GB

Removable Media: CD-R 700 MB and DVD-RAM 4.7 GB

Operating System: Microsoft Windows XP Professional

User Interface: Touch Screen and camera head control

Display: 10" color LCD

Computer Dimensions: 2.8 " H x 5.8 " W x 10" D

### **Power Requirements:**

110-120 VAC at 2.2A or 220-250 VAC at 1.0 A. 50-60 Hz.

**FDA approval:** 510(k) K030728
